

# Microhire | Events That Inspire Audio-Visual Services

**Exceptional Events Created By Exceptional People. *We have both!***

As the dedicated in-house audio-visual partner at the Royal International Convention Centre, Microhire provides end-to-end sales and technical support from the initial brief through to delivery and beyond.

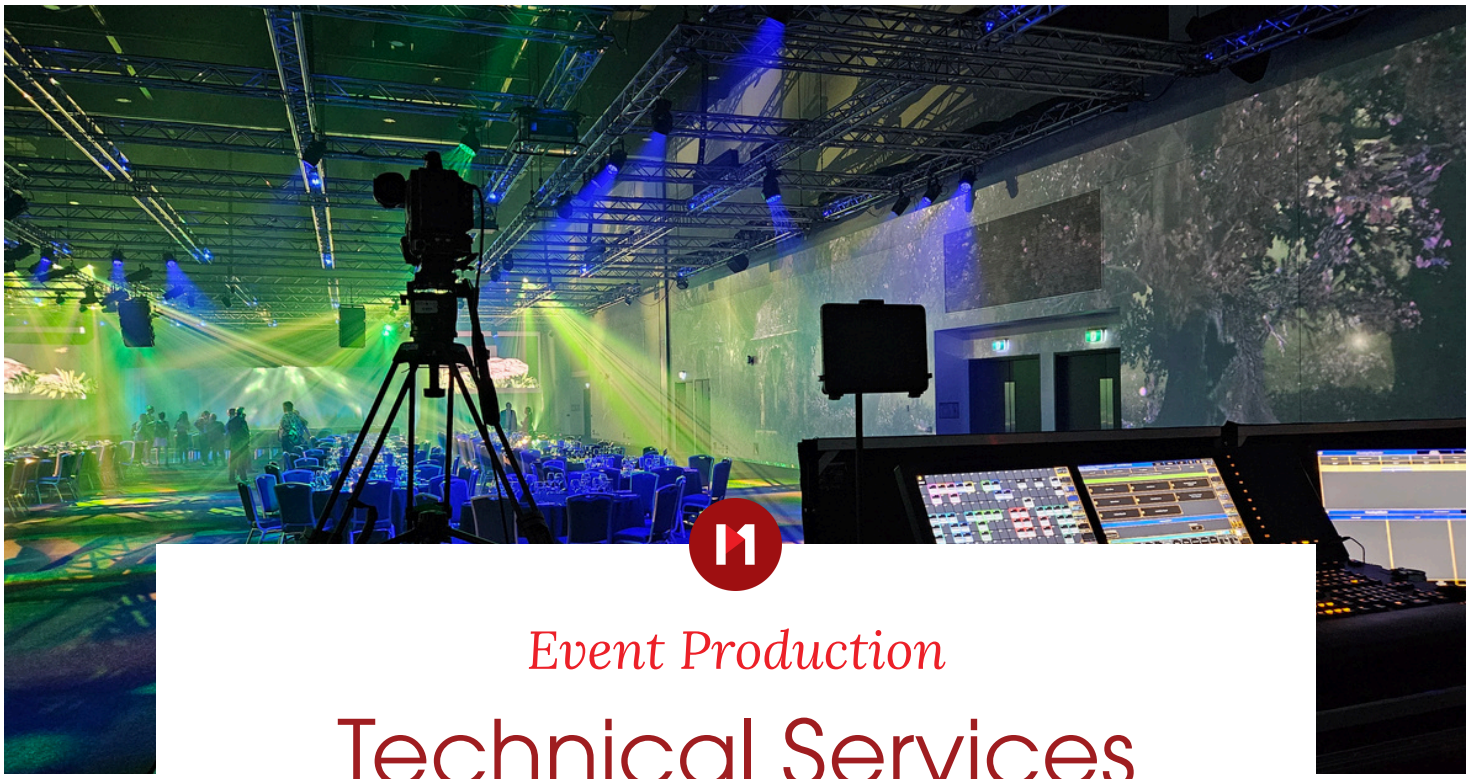

Creating world-class conferences and events requires precision and planning, and the expert team is fully equipped to deliver your needs. A recent audio-visual upgrade ensures a dynamic guest experience for events of every type. The installation features two impressive 12-metre LED screens delivering ultra-high-resolution visuals with 2.6mm pixel pitch for stunning clarity and impact, and the striking LED entrance features are high-impact visual experiences - an impressive 122 square metres of LED and 17,915,000 pixels including seven 4-metre meeting room screens, plus curved LED panels to scale up for any design or size. A first of its kind in Brisbane, along with the operable ceiling grids enabling efficient floor-height installations for AV equipment and other rigging elements to elevate your brand.

*Proudly Australian owned; audio visual and event staging specialists*

Microhire is your trusted partner in event staging and audio-visual solutions. Backed by nearly 40 years of event staging expertise, we go beyond simply providing AV equipment. We create trusted partnerships and deliver end-to-end audio-visual solutions and transform the convention halls and meeting spaces into extraordinary experiences.

Our commitment to innovation and excellence is what sets us apart – ensuring every event is engaging, impactful and powered by the latest advancements in technology.

## Event Production Technical Services

*Trust and confidence through seamless technical services.*

Our dedicate technicians deliver live events every day. They understand how event teams operate and how to design flexible solutions for real-time, trusted expertise - every note delivered on cue!

You can have confidence with our expertly engineered installations, venue-smart operations and robust systems to ensure a world-class experience for you and your guests.

*Our team live and breathe technology - it's in our DNA.*

Our onsite team provide end-to-end support - guiding you every step of the way. From the initial site inspection and brief to the pre-production and planning, onsite delivery and post-event wrap-up, our on-site sales and technical team ensure a tailored AV solution and a seamless, successful event.

Whether you require an ongoing agreement or tailored event solution, our team will help streamline communications with professional advice and an enhanced audio-visual experience.

## Conferences & Events

# Audio | Vision | Lighting

### *Crystal-clear sound. Expertly engineered audio solutions.*

Whether it's a keynote address, panel discussion, awards announcements or live performance, we ensure that every word and note reaches your audience with precision and clarity.

Expertly engineered line array systems, wireless microphone solutions, and digital mixing technology create a flawless auditory experience with crystal-clear sound throughout the Convention Halls, Meeting Rooms, Boardrooms and Concourse.

Concert quality audio for your event - amp up the sound!

### *Next-gen LED tech. Stunning visuals & impactful content.*

Ultra-high-definition LED screens will bring your event to life. The cutting-edge visual technology includes AI powered PTZ cameras, projection mapping, and live-streaming capabilities.

Two 12 metre LED screens create immersive environments complemented by two entrance features and 4-metre meeting room screens - ensuring your content is delivered right-on-cue with stunning clarity and impact across all formats.

From multi-camera productions to tradeshow and exhibitions - that's 17 million pixels at play delivering razor-sharp clarity.

### *More than illumination. It's story telling & transformative.*

Expert lighting designers use a blend of intelligent fixtures, colour washes, spotlights and projection effects to create dynamic environments that align with your brand, the vibe, and key message.

From subtle ambience to dramatic stage lighting or custom mapping effects, we design immersive experiences that elevate presentations, energise performances, and captivate both in-person and virtual audiences.

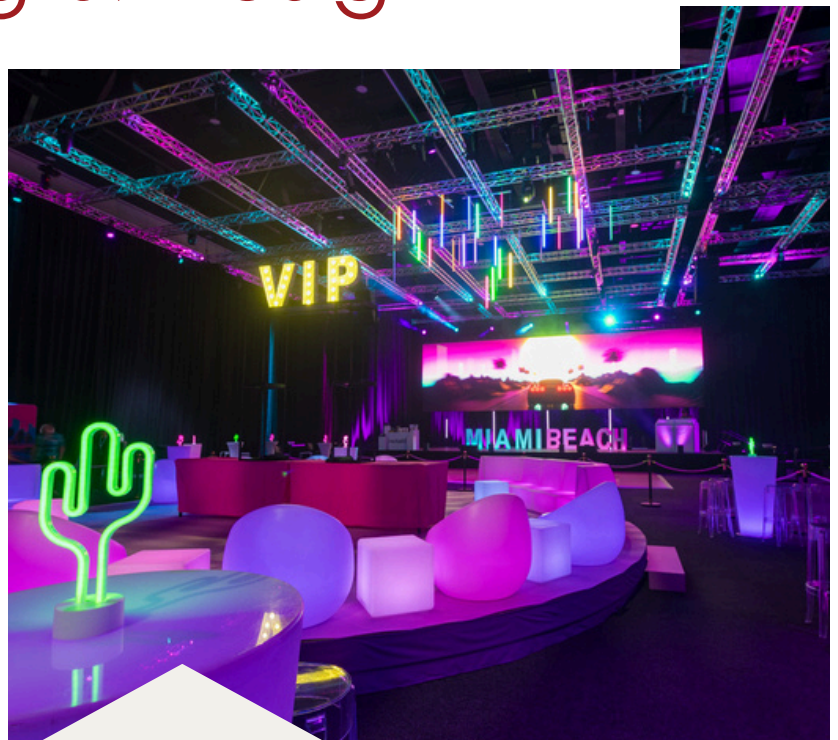

Whether it's a corporate event, gala dinner or product launch, we ensure every moment shines.

## *Gala Awards & Special Events* Styling & Design

### *Translate Your Vision into Reality.*

Our team's creativity and precision will ensure that every element is aligned with your vision for an immersive experience. Through thoughtful design and seamless execution, we transform the convention halls and meeting spaces into captivating event experiences.

### *When technology enhances story telling, the impact is unforgettable!*

Reimagine your event, your vision, and guest experience in ways that push the boundaries. Integrating technical and production elements with creative designs, leaves a lasting impression well beyond the event date.

Intentional. Impactful. That's story telling at its best!
